

Our HS and MS Intermediate & Advanced Band and Strings students performed beautifully in the Harvest Showcase concert this week! It was evident that these talented students have put in a ton of hard work under the leadership of Mrs. Saara and Mr. Christian!

AP Physics 2 students conducted experiments to find the electrical charge on a balloon.

Grade 7 Math students took a trip to 7-11 to learn more about rates, unit prices and equivalent ratios. They will be comparing these prices with bulk prices from other stores.

SPOTLIGHTS

Upcoming ICS Events & Activities

K5 Students dressed up for Weather Day for the end of their unit of learning about weather!

Grade 3 students made beautiful Sakura paintings as they learn about Japan.

For the first time ever, ICS MS students were recently inducted into the National Junior Art Honors Society!

K4 students are learning about number lines. They practiced through active learning outside!

After being nominated by an ICS alum studying at Yale, our very own Mr. William Gill was selected out of over 350 nominees to be given the Yale Educator Award for his impact in the lives of students! We are proud of Mr. Will!

We were happy to have a representative from Shark Guardian come and share about sharks with our grade 6 Science students as well as the AP Environmental Science classes!
